

LLOYD'S EXCHANGE

Lloyd's Exchange: IT Service Providers Trade Fair

Date: 12th November 2009

Time: 3pm - 5pm

Venue: Lloyd's Old Library, One Lime Street, London, EC3M 7HA

We hosted a successful Lloyd's Exchange IT Service Providers Trade Fair in June of this year, whereby we introduced the market to 17 IT organisations providing a relevant product and/or service to the Lloyd's Exchange.

Since then, the Lloyd's Exchange has moved into phase two of the pilot, and 40 organisations have been connected to date.

The purpose of this latest IT Service Providers Trade Fair is to once again provide the market with the opportunity to find out more about the available products and services that can assist with connectivity and ongoing usage of the Lloyd's Exchange. There may also be the opportunity to talk with your existing IT Service Provider to determine their offering and plans in respect to the Lloyd's Exchange.

We have asked the exhibitors to be prepared to clearly clarify how their product or service relates to the Lloyd's Exchange, and how they can assist their existing and potential client base with achieving the ultimate objective of back office integration.

The 'Trade Fair' will be held in Lloyd's Old Library on **12th November 2009** from **3pm** to **5pm**. This is a drop in event, however if you do not have a Lloyd's pass please email lloyds.exchange@lloyds.com.

The following IT Service Providers are confirmed exhibitors:-

- Benchstrength
- RI3K
- Sword Intech
- Coverpoint
- Room
- TIW
- Eurobase
- Sequel
- Trace
- Exari
- Software in Partnership
- TriSystems
- GPM
- SSP
- Web Connectivity
- Northdoor
- Sterling Commerce
- Xchanging

There will also be an ACORD stand, and a Lloyd's Exchange stand where members of the Lloyd's Exchange project team (including representatives from IBM, our technology partner) will be available to answer any questions you may have. This is a valuable opportunity to find out more about the Lloyd's Exchange, how your organisation can become involved and the IT products and services that can enable this.

Refreshments will be provided.
