

# LLOYD'S EXCHANGE

## Lloyd's Exchange: IT Service Providers Trade Fair

**Date:** 15 June 2009

**Time:** 1.30pm - 4.30pm

**Venue:** Lloyd's, One Lime Street, London, EC3M 7HA

As many of you will be aware, Phase 1 of the Lloyd's Exchange Pilot is underway, with a total of 18 connected as at the end of May (for more information on the project and progress to date, please go to [www.lloyds.com/exchange](http://www.lloyds.com/exchange)).

Parallel to this, we are meeting with managing agents, brokers and IUA companies to enhance understanding of the Lloyd's Exchange; maintain the momentum already generated; and sign-up participants for future phases. One of the key issues that has emerged during discussions with the market is that there is insufficient information available about IT products and services that could assist with connectivity to, and ongoing usage of, the Lloyd's Exchange. To support the market, Lloyd's will be facilitating a 'Trade Fair' for IT Service Providers.

By hosting the 'Trade Fair', we will achieve 3 key objectives:

1. broaden the market's understanding of the Lloyd's Exchange;
2. facilitate discussions between existing clients and their IT Service Providers on the subject; and
3. provide an opportunity for the market to engage with other IT Service Providers that have offerings relevant to the Lloyd's Exchange.

The 'Trade Fair' will be held in Lloyd's Old Library on **15 June 2009** from **1.30pm to 4.30pm**. You will be able to drop by at any time to discuss the Lloyd's Exchange with your existing IT Service Provider, or perhaps the many other IT Service Providers that are offering products and/or services in relation to the Lloyd's Exchange, including:

- Benchstrength
- Capita
- Catex
- Coverpoint
- GPM
- Infobahn
- Perspective Technologies
- RI3K
- Room
- Sequel
- Sterling Commerce
- Sword Intech
- TIW
- Total objects
- Trace
- TriSystems
- Web Connectivity

There will also be an ACORD stand, and a 'Lloyd's Exchange' stand where members of the Lloyd's Exchange project team (including representatives from IBM, our technology partner) will be available to answer any questions you may have.

Refreshments will be provided.

Please feel free to bring along your colleagues or nominate someone to attend on your behalf.
