What you need to know

In order to assist Underwriters in identifying losses related to this event, Coverholders and Third-Party Administrators reporting claims via Lineage are requested to utilize the Catastrophe coding capabilities of Lineage.

If a claim resulted from this event, you should select the applicable Catastrophe Code from the drop-down list when opening the claim and indicate if it is applicable to all Coverages/Kinds of Loss for this claim.

The full details relating to this Catastrophe will be available through the Lineage dashboard Claims History Report, available to Syndicates, Lloyd's Brokers, and Coverholders.

Should you have any questions relating to this process please contact us at info@lloyds.ca.
