Notification of publication

The template and associated guidance for calculation of the standard formula capital requirements as at 2018 year-end have now been published on [Lloyds.com](http://www.lloyds.com).

In order to meet regulatory reporting deadlines the submission of the standard formula calculation is required on a prospective basis. Agents should use inputs and assumptions which are consistent with the LCR return.

The structure and format of the template is the same as previous years, minor changes are highlighted in the addendum to the guidance.

Deadlines for submission

All syndicates must submit a completed and appropriately signed-off version of the template by 23rd November 2018. Submissions should use the naming convention described in the guidance and be made to SFReturns@Lloyds.com.
