Purpose of bulletin

This bulletin is intended to inform the Lloyd's market of the local reporting requirements for claims arising from Hurricane Rita.

Reporting requirements

The US States of Alabama, Florida, Louisiana, Mississippi and Texas are participating in a coordinated data gathering exercise in relation to insurance claims arising from Hurricane Rita. Details are set out in the attached memorandum, dated September 30 2005.

These reporting requirements are similar to those put in place in relation to Hurricane Katrina, details of which were given in Market Bulletin Y3636, issued on 29 September, 2005.

As with the Hurricane Katrina reporting requirements, Lloyd's is providing the required information on an aggregate basis, on behalf of Lloyd's as a whole. There is no need for managing agents to submit their own claims information.

Lloyd's reporting is based on data centrally available. This requires Xchanging Claims Services ("XCS") to record the requested information on the CLASS system. This, in turn, means that brokers must provide the necessary information when presenting claims files to XCS. As phase I of the information collection requires data by county (or parish, in the case of Louisiana), it is necessary to provide a split between affected geographical territories by county or parish for all direct Hurricane Katrina advices.

Lloyd's brokers and managing agents should therefore provide a split at county/parish level when Hurricane Rita claims files are presented to XCS. This applies to claims presented under binding authorities, under other facilities and on an open market basis. Lead underwriters of binding authorities will therefore need to ensure that coverholders or those reporting claims provide the county/parish location of Hurricane Rita claims. Xchanging Claims Services issued a bulletin about this on 4 October, 2005.

Claims for additional living expenses (ALE) and business interruption losses should be allocated to the county or parish in which the property in respect of which such claims arise is located.

This does not apply to reinsurance claims and it is appreciated that it is not possible to provide the county of a claim's location in all cases (for example, for offshore claims). The reports submitted by Lloyd's to US state regulators can take this into account.

SUBJECT: HURRICANE RITA REPORTING REQUIREMENTS

Due to the recent catastrophic impact of Hurricane Rita on the Gulf Coast, Alabama, Florida, Louisiana, Mississippi and Texas (the Collective States), are participating in a coordinated data gathering effort with a common Insurance Disaster Reporting System. This effort is necessary to provide much needed information to state insurance regulators, as well as information for local, state, and federal officials responsible for making policy decisions for the relief and rebuilding effort over the next several months and years.

All property and casualty insurers transacting direct business in the Collective States, including surplus lines carriers, are required to submit to the Disaster Reporting System, certain information for claims resulting from Hurricane Rita and the financial impact of Hurricane Rita on a state-by-state basis for each of the Collective States. The information will be collected in three phases:

- ❑ **PHASE I: Claims, Financial Projections and General Information** (Biweekly basis)
- ❑ **PHASE II: Line-of-Business Reporting** (Monthly basis)
- ❑ **PHASE III: General Claims Adjudication Data** (Monthly basis)

Information regarding Hurricane Rita should be submitted to the secured Insurance Disaster Reporting System at the following website: <https://www.insurance-disaster-reporting.org>. Additionally, the Collective States' Departments of Insurance have outlined below the initial Reporting Guidelines and Reporting Criteria for each phase. Information or data submitted is confidential and shall be disclosed to other state insurance regulators or state and federal regulatory bodies only if necessary to further the requesting entity's regulatory authority and only if the entity to whom disclosure is made has the legal authority necessary to protect from disclosure and to otherwise preserve the confidential or privileged nature of the confidential information it receives.

REPORTING GUIDELINES:

PHASE I – Claims, Financial Projections and General Information

Each insurer shall provide the required information beginning at **8:00 AM CT on Monday, October 10, 2005** for the most recent information available. Each insurer's initial submission shall be completed not later than 5:00 PM CT on Wednesday, October 12, 2005. The required information under PHASE I shall continue to be provided on a biweekly basis not later than 5:00 PM CT each Wednesday, until the insurer receives notice from the Collective States regarding changes to the Reporting Guidelines. The information for Hurricane Rita can be submitted on a company or group basis; however, the basis must be consistently applied throughout future reporting periods. Please have the *NAIC company co-code/group-code* available for the company/group, as well as the *NAIC Internet Filing ID* when accessing the system.

If a company has no exposure in each of the Collective States, under the PHASE I report type, select: *"The Company has no exposure in [State]."* Continue through the end of the Reporting Guidelines process. Once this task has been performed, the company will not need to report again for Hurricane Rita for any phase, unless the company gains direct exposure in one of the Collective States.

If the company has exposure in each of the Collective States, but has not yet received claims as a result of Hurricane Rita, under the PHASE I report type, select: *"The Company has exposure in [State], but has not yet received any claims as a result of Hurricane Rita."* Continue through the end of the Reporting Guidelines process. Once this task has been performed, the company will not need to report again for Hurricane Rita, until the company receives one (1) or more claims during the required reporting timeframe in one of the Collective States.

PHASE II – Line-of-Business Reporting

The required information shall be submitted on a monthly basis, not later than 5:00 PM CT on the fifth (5th) business day of the each month, for the immediately preceding month. Each submission shall contain the cumulative results experienced by the insurer from Hurricane Rita.
