It is recommended that you regularly review this site to ensure that there are no subsequent changes brought about by Market Bulletin updates.

You may wish to consider installing a News Reader program which will allow automatic RSS (Really Simple Syndication) feeds. This is an easy way to be updated of changes made to the timetable. Instead of having to visit the website, you can use RSS to inform you every time there is new content.

A wide range of News Readers are available. Please see the link below for further information.
