Franchise Performance and Risk Management Charge

- 1.1 The Franchise Performance and Risk Management charge has been calculated to recover approximately £12m from the Market in order to fund the activities of the Franchise Performance and Risk Management teams.
- 1.2 The principles of the charge:
- there should be a minimum fee for all agents;
 - the amount of resource required for an agent rises as the size of the agent increases. However, an agent with, for example, £500m capacity does not require five times the amount of resource as an agent with £100m capacity. The charging structure reflects this; and
 - the amount of resources needed increases with every syndicate an agent manages.
- 1.3 For 2008, managing agents will pay:
- a flat fee of £11,000 per syndicate managed;
 - a minimum fee of £15,500 for a managing agent and £20,700 for a members' agent;
 - various levies on bands of capacity, which decrease as the amount of capacity rises.
- 1.4 The charge will only be made on active capacity for 2008. Agents which only manage syndicates in run-off will not attract a Franchise Performance & Risk Management charge, but will attract a special charge as outlined in appendix 2. An agent that commences or increases operations mid-year will attract a pro rata charge.
- 1.5 The charge will be collected in two equal instalments due by 7 January and 2 June 2008. Any payment not made by the due date will attract an interest charge at 5% over National Westminster Bank plc base rate.
- 1.6 The charges will be made as follows:

Managing Agents:

The charge on managing agents shall be calculated as follows. The flat fee of £11,000 per syndicate should be added to the figures set out in the table below for managing agents.

Capacity of Agent	£ (minimum fee)	For each £ of capacity above the minimum capacity stated in the left hand column
£0 - £50m	15,500 plus	0.1591%
£50m - £150m	95,050 plus	0.0956%
£150m - £250m	190,650 plus	0.0796%
£250m - £500m	270,250 plus	0.0221%
Above £500m	325,500 plus	0.0201%

Members' Agents:

The levy on members' agents (including corporate advisers) shall be calculated as follows:

Capacity of Agent	£ (minimum fee)	For each £ of capacity above the minimum capacity stated in the left hand column
£0 - £50m	20,700 plus	0.0246%
£50m - £150m	33,000 plus	0.0246%
£150m - £250m	57,600 plus	0.0123%
Above £250m	69,900 plus	0.0074%

Syndicate Expenses

- 1.7 As the activities underlying the Franchise Performance and Risk Management Charge relate predominantly to the day to day transaction of underwriting business at Lloyd's, it may be treated as a syndicate expense. Managing agents should ensure, however, that it is apportioned between syndicates and years of account in accordance with the Code of Practice for Underwriting Agents – Syndicate Expenses (see Regulatory Bulletin 069/2000, issued 13 September 2000). Moreover, specific disclosure should be made in the syndicate annual report and accounts of the apportionment policy adopted and a breakdown of the figures provided by reference to each year of account. Run-off charges paid in accordance with appendix 2 should be treated in a similar fashion.
- 1.8 The foregoing approach applies to all aspects of user pays charging currently in place through the Corporation, i.e. if the charge can be determined as relating directly to the business of the syndicate itself it may be charged as a syndicate expense, subject to the disclosure requirements outlined above.

Charges in respect of Syndicates in Run-off

- 1.1 The Franchise Performance and Risk Management Charge will not be applicable to agents with run-off syndicates. Instead they will pay an annual charge at a flat rate of £1 per £1,000 of reported net insurance liabilities, assessed by reference to the most recent audited accounts of the syndicate for each year of account in run-off. For this purpose a run-off syndicate means a syndicate which no longer accepts new or renewal insurance business (other than the variation or extension of risk previously underwritten or reinsurance to close an earlier year of account of that syndicate). This charge is unchanged from 2007.
- 1.2 In this context, net insurance liabilities means the amounts retained by each syndicate in run-off, in respect of each year of account in run-off, to meet all known and outstanding liabilities carried forward as at 31 December 2007. If the relevant audited financial statements are unavailable and their production appears likely to be significantly delayed, an interim charge (to be adjusted if necessary on subsequent publication of the relevant audited accounts) may be assessed by reference to the most recently submitted quarterly monitoring return (QMR) made by the run-off managers to Lloyd's for the syndicate for the relevant years of account. Any payment of this charge not made by the due date will attract an interest charge at 5% over National Westminster Bank plc base rate.

Capacity Markets 2008

All charges set out below are to be paid by the relevant members of the Lloyd's community and exclude VAT.

Capacity Markets charges in 2008 will be the same as for 2007, as set out below.

Type of charge	Charge
	£
Approval of capacity offer by means of announced auction offer	1,900
Approval of formal capacity offer (cash only)	5,000
Approval of formal capacity offer (with shares or a share alternative)	6,200
Approval of conversion scheme (with interavailability)	9,600
Approval of conversion scheme (with reverse interavailability or transition)	10,600

An additional fee may be charged to sponsors to cover, for example:

- additional costs incurred in processing particularly complex schemes, especially where features not directly necessary to the scheme are included; and
- the reimbursement of any external legal (or other professional) fees incurred by Lloyd's in developing a particular scheme. An example of this is where bespoke trust deeds are prepared for reverse interavailability schemes.

Every effort will be made to make promoters/sponsors aware of the possibility of an additional charge at an early stage in the process.

Policyholder and Market Assistance Charges 2008

All charges set out below are to be paid by the relevant members of the Lloyd's community and exclude VAT.

As in 2007, the Policyholder and Market Assistance is seeking to recover its complaints handling costs on a user pays basis. The charges for 2008 closely reflect the work involved in the various stages of the complaints process.

Despite best endeavours a small number of complainants will insist on referring matters to the FOS which will result in a minimum charge by the FOS of £360 for each case. As in 2007 these additional costs will be recovered from the syndicates involved.

The operating costs of the Financial Ombudsman Service are borne by the insurance industry as a whole through a combination of case fees and a general levy on member firms. The FOS's general levy charged to Lloyd's is recovered from personal lines syndicates based on premium income figures. The recovery will continue to be made in 2008.

The market charges reflect the work carried out on pure complaints handling. There are also certain tasks carried out by the department which ensure that Lloyd's complies with all aspects of the FSA complaint handling rules. The department also coordinates the market's response to policyholder enquiries in the event of a major loss. It is felt appropriate that those costs are borne by Lloyd's centrally.

POLICYHOLDER AND MARKET ASSISTANCE CHARGES 2008	
DESCRIPTION	2008 CHARGE
Administration fee for UK complaints	£110
Administration fee for Overseas complaints	£200
Additional fee for full investigation – UK complaints	£435
Additional fee for full investigation – Overseas complaints	£395
Recovery of Financial Ombudsman Service (FOS) case fee	Complaints received after 1/1/05 FOS case fee to be recovered (min £360)
Recovery of FOS Levy	Charge applied by FOS is recovered from Personal Lines syndicates

Finance Directorate - 2008 Market Charges

Foreign Exchange Dealing Fees

The Treasury Department makes a charge for undertaking foreign exchange activity on behalf of Lloyd's market participants.

Foreign exchange dealing instructions may be received directly from managing agents or indirectly in connection with other activities, including the Lloyd's Currency Conversion Service.

Charges vary between 0.03% and 0.05% of the sterling value of transactions, although the minimum charge is £10. Charges are levied by adjusting the exchange rate at which deals are transacted, by reference to the relevant market rate. No separate charge is made.

As a result of the large volumes of foreign exchange business transacted by Treasury, it is able to obtain very competitive dealing rates from its counterparties. This means that the exchange rates achieved remain advantageous when compared to retail rates, despite the charge made by the Department.

Provision of Schedule 9a Information to Corporate Members

Introduction

Corporate members of Lloyd's are required to prepare their accounts in accordance with Schedule 9a of the Companies Act 1985. Market Reporting Department (MRD) offers a "central facility" to provide corporate members with the data that they need in order to be able to prepare their accounts in accordance with Schedule 9a. MRD is able to provide this facility by advising on the data requirements, collecting the syndicate data in the relevant format from managing agents, processing it and providing outputs in the Schedule 9a format for each subscribing member. If the central facility was not available, it would be necessary for individual corporate members to contact the managing agent of each syndicate on which they participate in order to negotiate arrangements to obtain this information, which would not be otherwise provided by managing agents. It is likely that the cost to a corporate member of having to obtain the data this way would be greater than the fees charged for the Lloyd's facility.

Fees

Each corporate member that wishes to subscribe to this service is required to pay a fee as prescribed under the Syndicate Accounting Byelaw (No. 8 of 2005) as amended. This fee is calculated by reference to the highest overall premium limit (OPL) of the corporate member concerned and number of syndicates (disregarding syndicate years of account for this purpose) in which the corporate member participates.

The prescribed fees (excluding VAT) for the December 2007 facility are set out below and vary with respect to the size (in terms of OPL) of the corporate member. They are unchanged from last year.

OPL for member*	Fee per syndicate participation**	Maximum fee**
£15,000,001 or greater	£125	£3,750
£10,000,001 to £15,000,000	£100	£3,000
£5,000,001 to £10,000,000	£70	£2,100
£2,000,001 to £5,000,000	£35	£1,050
£2,000,000 or less	£35	£700
Members participating on 2004 or prior run-off years only	£35	£700

* OPL is defined as the highest OPL written for any year of account within the last three years of account.

** Fees are calculated per syndicate (not syndicate year) participation and are exclusive of VAT at 17.5%

Key assumptions

The fee structure for 31 December 2007 Schedule 9a reporting has been prepared on the assumption that the level of subscription to the central facility and Market Reporting Department's costs incurred in providing this facility, do not change materially from those relating to the 2006 exercise.

Other significant matters

No established alternative source in order for corporate members to obtain this data currently exists. As noted above, however, the cost incurred by corporate members making their own arrangements to obtain the information directly from managing agents is likely to be somewhat higher.

Corporate Inter-available FAL

Corporate groups may wish to rationalise their Lloyd's operations and reduce the number of underwriting subsidiaries. Lloyd's has developed a mechanism and the documentation to deal with the provision of Funds at Lloyd's to support both the business being run off by the ceasing corporate members and the increased level of underwriting by the continuing corporate member.

A fee is payable by those corporate groups seeking to consolidate and make their individual corporate members' FAL inter-available. This charge seeks to recover principally legal costs incurred by Lloyd's in respect of such consolidations. The fee is £1,000 (excluding VAT) per ceasing member subject to a maximum of £10,000 per corporate group consolidation.

Premium Tax Administration

The Tax department administers the collection and payment of UK insurance premium tax and various foreign insurance premium taxes and makes a charge to cover the administration costs of this activity. The charge is levied on a flat basis for all syndicates, arrived at by dividing total costs by the number of relevant syndicates (excluding life syndicates and those motor syndicates that file their own IPT returns and have limited exposure to foreign taxes). On this basis the charge for 2007 is £9,000 per syndicate. The collection of this charge will take place in January 2008.

The charge for 2008 is expected to remain the same, £9,000 per syndicate.

Property Services

Market Services

Introduction

2008 Room Rental charges have increased by 1% compared to the 2007 level.

Key Assumptions

Property Services reserves the right to review its decision should it transpire that the demand for Underwriting space in 2008 is significantly less than that for 2007.

Security Passes

Introduction

The charges for security passes will remain at the 2007 level of £25.

Key Assumptions

There is a continued need for a security pass system for entry into Lloyd's buildings.

Tenants' Service Charge

Introduction

The office accommodation on Galleries 3-10 attracts a service charge for the provision of all day-to-day services. Apart from telephone and data charges, tenants have a fully inclusive service charge covering their needs. Service charges will increase by 3% on the 2007 level.

Key Assumptions

Property Services has outsourced the running of the services of the 1986 Building. The costs will be reviewed throughout 2008 and any savings that can be achieved will be passed on to the tenants.

Tenants' Insurance Charge

Introduction

2008 charges have been reduced by 3% compared to the 2007 level.

Key Assumptions

It has been assumed that there will be no additional increase to the projected rate from July 2008, but Property Services reserves the right to pass on any increases in costs.

Overseas Operating Charges

All charges set out below are to be paid by the relevant members of the Lloyd's community and exclude VAT.

a) Overseas operating charges

Charge	Basis	2008 Operating Charge %
Direct Business - overseas	Per £ of gross overseas premium	0.40%
Reinsurance business - overseas	Per £ of gross overseas premium	0.14%
Coverholder business supplement	Per £ of gross overseas premium	0.19%

b) Other charges

Italy	Premium and claims payment processing fee of 0.75% of gross premiums flowing through the Lloyd's Italian office.
-------	--

c) General User Pay Charges

User pay charges will apply for work requested by specific market customers where that work requires substantial additional effort and has resulted in significant extra cost. These charges are likely to be time based.

If this situation applies, then the cost implications will be made clear to the syndicate before proceeding with the work. Such charges are likely to be on a time and materials basis and could include the following in respect of Canadian operations:

- the production of non-standard reports
- significant charges incurred by Lloyd's in the event of late payments by coverholders of Scheme Canada settlements.
- costs of data entry by Lloyd's after full transition to Lineage
- costs of reconciliation of Scheme Canada statistics and records with underwriter, Lloyd's broker or coverholder records.

Cost base

The overseas operating charges fund aggregate overseas costs, net of local and user pays income. For 2008 the net costs are budgeted to be £43m.

Premium assumptions

Gross international (ie excluding UK and Channel Islands) premiums will continue to be used as the basis for the core operating charges. For the purposes of calculating the 2008 operating charges set out above, 12 months premium to 30 September 2007 has been used, however actual premium relating to the 2008 year of account will be used for collection purposes.

Overseas Operating Charges 2008

Collections from syndicates

The overseas operating charges will continue to be collected from syndicates on a quarterly basis and in the quarter following the year end, adjustments will be made to ensure in the aggregate, the amounts collected from syndicates are equal to the costs for the year and that at individual syndicate level, the amounts collected in respect of direct and reinsurance business are equal to that syndicate's proportionate share of the aggregate premiums. This might result in amounts being repaid to individual syndicates or further collections being made. In making any adjustments, the coverholder supplement will remain at 50% of the overseas operating charge on direct business.
