Purpose	Preliminary timetable for the third quarter US Reporting Return
Type	Scheduled
From	Leslie Redmond, Manager Overseas Reporting, Market Finance, Finance Risk Management & Operations Direct phone number: 020 7327 5490 email: leslie.redmond@lloyds.com
Date	8 September 2009
Deadline	
Related links	

I am writing to confirm the timetable and other arrangements in respect of the submission of the third quarter 2009 US Reporting packs to the New York Insurance Department (NYID).

Please copy this bulletin to those within your organisation who will be responsible for reviewing and completing the US Reporting packs.

Timetable for 30 September 2009 reporting exercise

As you know, the quarterly returns have to be filed with NYID, within 45 days of the quarter end and I would remind agents that this deadline has to be complied with strictly, to ensure that Lloyd's meets its US reporting requirements. The timetable for this filing exercise is detailed below:

	<u>Key Date</u>
Provision of preliminary electronic packs by Market Finance to Managing Agents via the Market Reporting web-site. <u>Agents should download their packs and supporting documentation from the web-site.</u>	13 October 2009
Submission of amended electronic packs by Managing Agents to Market Finance	30 October 2009

Provision of final signed and notarised reporting packs by Managing Agents	4 November 2009
All syndicate packs to be despatched to New York by Market Finance for filing with NYID	6 November 2009

We would recommend that agents ensure they are able to access the Market Reporting web-site in advance of the key dates. If you have any queries regarding the web-site, please contact the Market Returns helpline number on 020 7327 5021.

Please note that it is essential that any queries generated by the packs or otherwise should be raised well in advance of the deadline dates to allow Market Finance sufficient time to revert to you with the answers. This is particularly relevant to queries in respect of Citibank investment and cash balances, or where in extremis an adjustment is required which cannot be made to the electronic packs which agents are updating.

Reserving at quarter ends

You are reminded that the reserves at quarter ends for the 2008 and prior years of account must be calculated using the “modified UK basis of reserving”. Please note that the Ultimate Loss Ratios (ULRs) and Ultimate Premium Income (UPI) used to determine reserves for these years of account at the previous year end should also be the ones to be used at each of the first three quarter ends of 2009. Any changes to the ULRs and/or UPI determined at the previous year end must be supported by detailed working papers, retained in your offices, showing revised projections on which the ULRs are based and the reasons for such changes,

Reserves for the 2009 year of account, which is still at a very early stage of its development for the first three quarters of that year, must be determined **at the higher of** total cumulative signed gross premiums (net of brokerage and commission) less cumulative gross paid claims for that period and total gross outstanding claims at each quarter end, unless it is apparent that the ULRs for that year will exceed 100%, in which case reserves as at the quarter end must be adjusted accordingly. Guidance notes and a worked example were issued in a letter dated 1 April 1998.

This bulletin has been sent to all managing agents. If you have any queries on the contents please contact me (ext. 5490) or David Cokayne (ext. 6238) or Nadia Yakoob (ext 6317).
