REVIEWS AND RATINGS Q1 2015

JANUARY:

- ▶ Round of SAG meetings in second half of January to review all agents
- ▶ Ratings are now binary: **Red** or **Green**
 - ▶ **Green: all internal model tests and standards are met**
 - ▶ **Red: not all internal model tests and standards are met**
- ▶ Detailed evidence required to show that issues have been addressed (regardless of whether issue was identified by Lloyd's or the PRA)
- ▶ Ratings are based on directive internal model requirements:
 - ▶ internal model tests and standards
 - ▶ not driven by ORSA, Actuarial Function Reports, Pillar 3 unless issues are sufficiently material
 - ▶ Just 1 internal model test and standard failure is enough to drive a red rating

REVIEWS AND RATINGS Q1 2015

- ▶ Position as of now...
 - ▶ A number of agents rated red
 - ▶ Common themes:

Validation	<ul style="list-style-type: none"> ➤ Completeness and effectiveness of tests ➤ Independence of validation
Model Use and Embedding	<ul style="list-style-type: none"> ➤ Further evidence required of sufficient collective understanding at Board level
Documentation	<ul style="list-style-type: none"> ➤ Previous feedback not addressed, particularly on policies, eg model change policies

- ▶ Some issues will be easier to address than others which are longer term

REVIEWS AND RATINGS Q1 2015

FEBRUARY:

- ▶ Sole focus during February will be on red agents (subject to follow up review work that the PRA wish to carry out on Lloyd's position which will include some green agents)
- ▶ Ratings will be reconsidered by SAG at end of February
- ▶ Formal communication of all agent ratings (red and green) by end February
- ▶ For agents rated red at end February:
 - ▶ Remediation plan will be agreed depending on specific issue(s) driving the rating
 - ▶ **Red rating** = 20% capital loading for mid-year Coming into Line
